

# Exposition internationale de sculpture contemporaine

**expo67**  
MONTRÉAL CANADA

## International Exhibition of Contemporary Sculpture

Cette exposition rassemble une prestigieuse collection pour le plus grand plaisir des visiteurs invités à se promener dans un jardin de sculptures et de fleurs. Un comité international a contribué à l'établissement de la liste des artistes, adaptée ensuite aux nécessités d'une répartition géographique et d'une représentation généreuse de la sculpture contemporaine. L'exposition a largement accueilli les sculpteurs vivants sans pour autant négliger les principaux maîtres disparus. Le catalogue contient une présentation illustrée de la sculpture contemporaine.

Strolling through pleasant rose gardens on the Ile Ste. Hélène, visitors will view an impressive exhibition of the works of over fifty contemporary sculptors from around the world. Recommended by an International Selection Committee, a preliminary list of artists was modified with emphasis on geographical distribution and equitable representation. Included are more than thirty works by living artists and more than twenty works by contemporary artists who are deceased. The illustrated catalogue contains an introduction and survey of contemporary sculpture.
