

TRAVEL CANADA

CENTENNIAL YEAR/1967

Take your camera...
and plenty of **Kodak** film

PICTURE-TREASURES AHEAD!

Of all summers, this is the one to tour Canada with your camera. All across the broad, picturesque land, exciting local events are celebrating the nation's 100th year . . . from a spectacular Naval Assembly off Vancouver and Victoria July 14-25, and the Pacific National Exhibition August 19-September 4, to the vast Expo 67 in Montreal open until October 28 . . . with many other events and picture-worthy celebrations in between.

It will be a treasure-land for new experiences to capture and keep in pictures. Plan to go. Take plenty of Kodak film. And at Expo 67, make your first stop the Ile Notre Dame station, visit the Kodak Pavilion nearby, and pick up your free picture-taking map. It will guide you to the key spots for good pictures.
