SHOWS AND ACTIVITIES AT THE PAVILLIONS

Every year, new horizons open to visitors in the pavilions at Man and His World. And these new worlds are brought into even sharper focus through the many shows and activities in the pavilions. They are colourful, entertaining courses in history, geography and folklore.

To give the visitor a real close-up of life in their countries, some pavilions stage folkloric shows as their main attraction.

These spectacles are entertainment of the finest, and heighten the visitor's interest in the pavilion. Most of the national buildings reserve a special place for their folk arts, knowing that the public can learn from them the most about life of their countries.
