EXPO IS BACK!

Expo 67, last year's most remarkable international exposition, combining the excitement of a world visit, the education of a peek into the past—and the future—and the enjoyment of a great show, made history in 1967.

MAN AND HIS WORLD will make history in 1968!

This year, more than 45 nations of the world will again do their best to make you think, laugh, and wonder over the startling achievements of man.

You'll chill to the silent world of the polar icecap, shudder in the shadowy ocean depths, thrill to the immensity of outer space, learn about the cultures and customs of your world and the people in it.

THIS YEAR, IT'S MAN AND HIS WORLD

Most of last year's nations will be back—many with new and surprisingly different attractions. It's a wonderful world tour—all in one place. And the Expo Express will again provide free transportation throughout the Expo site.

Expo is only minutes away from beautiful Montreal. Itself an exciting attraction, Montreal—the Expo City—combines an unique French flavor, modern breathtakingly lovely architecture and old-world charm, with the finest food in the Western Hemisphere.

This year, enjoy a "foreign" vacation without leaving North America. At MAN AND HIS WORLD, have the Time of Your Life, See the Life of Your Times.
