*Saskatchewan
Standing Tall
at Expo 86*

Premier's Message

Saskatchewan is an exciting place to be, and we're proud to share the excitement, achievements and creativity of our people with the world at Expo 86.

Our pavilion reflects the spirit of Saskatchewan. It's a people place — a fun place, full of variety, entertainment and exhibitry, all contained in a uniquely designed building that's certain to spark the imagination.

I know you'll enjoy the Saskatchewan Pavilion. Like our province, it's an exhilarating place to visit.

Grant Devine
Premier

Everyone Is Welcome!

Enticed by the sound of the calliope, intrigued by the sight of a 1913 steam engine beside a tractor of today, the welcome court of the Saskatchewan pavilion beckons its visitors.

Exhibitry in the Hall of Innovation provides the visitor with a glimpse of Saskatchewan's advancements in transportation and communication, in keeping with the Expo 86 theme "World in Motion — World in Touch". Our guests will relax, smile and enjoy a heart-warming story of Saskatchewan people in Horizons Theatre, while a visit to the gift shop will showcase the works of Saskatchewan artists/artisans and offer demonstrations of their work. Detailed information, tourism to business, highlighting Saskatchewan opportunities is available at the visitor services area. Saskatchewan hospitality, a harvest menu, continuous variety entertainment and a musical revue add to the fun and eating experience in the full service Showstage Harvest Restaurant. Each evening, Saskatchewan Cabaret joins the nightlife of Expo 86 — don't miss it.

Outdoors, the playcourt offers a welcome respite for children and parents alike.

And ten stories tall . . . the Saskatchewan tower. Visitors will learn how grain elevators work, enjoy a scenic view from the observation deck and thrill with a ride into a potash mine.

SASKATCHEWAN at Expo 86 — "a presence to be proud of".

Working Together

For helping Saskatchewan stand tall at Expo 86, SaskExpo 86 thanks its corporate sponsors.
