

EASTMAN CHEMICAL PRODUCTS, INC.

Kingsport, Tennessee

THE DOME THEATRE SHOW

Time: 15 minutes

presented by
Eastman Chemical Products, Inc.,
subsidiary of Eastman Kodak Company

Here's what you'll see...

what it's like inside an atom.

how atoms work for you.

how chemists in Eastman laboratories combine atoms in new ways to make new products.

how Eastman products bring new beauty, color, comfort, and convenience into your life.

While you're waiting, meet your host: Eastman Chemical Products, Inc.

Eastman Kodak Company of Rochester, N. Y., is known the world around for fine cameras and photographic film.

Two divisions of this parent organization are Tennessee Eastman Company, Kingsport, Tennessee, and Texas Eastman Company, Longview, Texas.

The Dome Theater Show aims to entertain you while we tell you about the exciting things that these two Eastman divisions make—all products of modern chemistry.

These products are marketed by your host, Eastman Chemical Products, Inc., with selling offices all over the United States.

They fall into four main categories: textile fibers, plastics, plastic sheeting, and chemicals.

There is a very good chance you're wearing or using or otherwise enjoying Eastman products every day of your life. So it's nice to meet you!

Write Us!

Eastman maintains fully equipped laboratories staffed with experienced and qualified personnel. We will be glad to work with manufacturers interested in using any Eastman product. For samples and/or further information, see your nearest Eastman sales office or write Eastman Chemical Products, Inc., Kingsport, Tennessee.
