Pavilion | 86™

The 1986 World Exposition
Vancouver, British Columbia, Canada
May 2 - October 13, 1986

**COME
ABOARD
A CANADA
YOU'VE NEVER
EXPERIENCED
BEFORE**

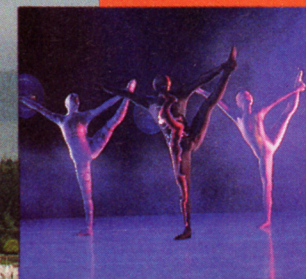

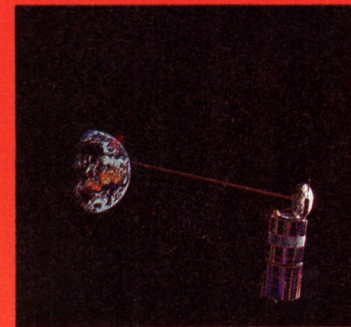

A VOYAGE TO NEW DIMENSIONS

Set sail with Canada, the national host of EXPO 86. Journey aboard the Canada Pavilion, the never-to-be-forgotten flagship of the 1986 World Exposition. Beneath its sails, expect the unexpected.

You'll discover the superlatives of Canadian science and technology, our breakthroughs in transportation and communications. Encounter an incredible Canada that leaps out at you from the world's first three-dimensional movie ever filmed for the gigantic CN IMAX screen.

Goggle at the newest Canadian technology in flight. Drift through the deep oceans of space as a trailblazing Canadian satellite reveals a breathtaking remote-sensed spectacle of our country. Experience the sensation of plunging undersea in a submersible with our pioneering aquanauts.

You'll enjoy the freshest visions of our most innovative filmmakers, designers, artists and entertainers — including a dance company specially created for the Pavilion by one of our nation's leading choreographers. It's a pageant of performers showing the world the exuberant talent of young Canadians.

The Canada Pavilion. Designed like an immense ocean liner. Dramatically anchored in one of the world's most spectacular harbour settings. A new Canadian symbol in the making. And it's the largest and most splendid of all of Expo's international pavilions — an odyssey through wondrous new dimensions of Canada.

BENEATH
THE
SAILS

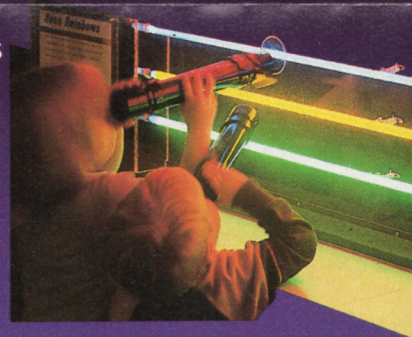

DISCOVER

THE
CANADA
PAVILION

The Canada Pavilion is a magical excursion through a nation where our visionaries strut their stuff. You'll take part in a Canada Celebration that acclaims our contributions to a world in motion, a world in touch. You'll enter new worlds as a blend of astonishing special effects and live actors dramatizes the vital Canadian presence in space and deep-sea exploration.

Children will see and feel high technology first-hand. The whole family will explore a mini-bazaar of superb Canadian arts and crafts. And, when you hunger for more than fun and culture, you can relax at a food fair or a fine-dining restaurant with a magnificent panorama of Vancouver's sea and mountains.

You'll experience high technology in a warm and inviting way.

Witness an actual satellite link-up with the far reaches of Inuit settlement in the Arctic. Have a hands-on happening with sophisticated communications hardware. And take a close-up look at how Canadarm helps space-shuttle astronauts and how Smartarm assembles and services orbiting space stations.

The 350-seat Studio Theatre has computerized multi-screened video projectors that create extraordinary visual effects for live performances — among them, a contemporary vaudeville show and the cream of Canada's jazz, folk, country and classical artists. In the 500-seat amphitheatre, you'll delight in a unique harbour view while you enjoy a family program produced by the organizers of Vancouver's famous Children's Festival.

A DELIGHTFUL CANADA

The Canada Pavilion is a pleasure cruise, a fun-laden trip with family entertainment and some of the nation's finest artistic achievements. Everywhere you wander you'll be surrounded by street entertainers and the clowns and puppets, magicians and storytellers of the Tabootenay travelling carnival.

A DRAMATIC CANADA

Our filmmakers will dazzle you in the CN IMAX Theatre with a groundbreaking film that combines the largest frame in motion-picture history with 3-D that reaches right out to you. Another movie will bring you into the action through the super-realism of the leading-edge Showscan system. In the Teleglobe Theatre you'll be inspired by an extravaganza that marries technical wizardry with creative genius. And off-screen you'll see such real-life wonders as a twenty-first-century airship spinning through the Pavilion.

A VIBRANT, VISIONARY CANADA

Canada
Pavilion

Cruise ships will continue to tie up at the CANADA PLACE terminal. Business people from around the globe will frequent the World Trade Centre. Visitors to Vancouver will stay in the luxurious 505-room hotel.

Local residents as well as visitors will enjoy the permanent CN IMAX Theatre, the amphitheatre, the restaurant and the promenades landscaped with native plants first chronicled during the voyages of Captain George Vancouver.

And in mid-1987, the facilities that house the Canada Pavilion will become the Vancouver Trade and Convention Centre, the largest in Western Canada.

CANADA PLACE: A POST-EXPO LEGACY

The home of the Canada Pavilion, the standard-bearer of EXPO 86, is CANADA PLACE. The ship-like waterfront complex will remain a cultural and economic legacy from the Canadian Government long after the World Exposition ends.

CANADA PAVILION: AN INVITING FRONT DOOR TO EXPO 86

The Canada Pavilion is the only pavilion with its own entrance gate to all of EXPO 86 — it can be your gangway to both waterfront sites of the 1986 World Exposition.

Once you purchase your Expo ticket, there's no other fee to enter the Canada Pavilion. From this

convenient location in the downtown Vancouver harbour, it's only a four-minute trip on the new high-tech Tomorrow Train to the other Expo site on False Creek. You can travel back and forth between the two venues, free of charge, as often as you like.

The enthralling Canada Pavilion experience will set the standard for the rest of your voyage through the world at EXPO 86.

MAKE CANADA YOUR FIRST PORT OF CALL

The Canada Gate — at the Canada Pavilion on the Burrard Inlet Expo site — can be your main entrance to all of the World Exposition.

When you're on the False Creek Expo site, look for the enormous hockey stick and the Canadian flag atop the world's tallest freestanding flagpole — the Portal to the Canada Pavilion.

Linking the two Expo sites is a four-minute trip aboard the new high-tech Tomorrow Train.
